ORTON RANCH
Red Angus

Welcome Cattlemen and Women!

“Opportunity is everywhere.” 2020 has certainly presented many different opportunities, especially those on attitude and perspective. We are grateful to be in the cattle business and offer to you a different perspective and opportunity in your choice for breeding livestock.

We believe we’re developing a great program that every cattle producer should consider.

What does “Ranch Raised Bulls” entail? Why should you consider our bulls? On our ranch, the cow raises her calf on her own without creep feed. Weaned calves are on a slow gain high roughage diet. Our yearlings are grown completely on native Sandhills grass, no supplement besides salt and a good mineral program. After grazing all summer on Sandhills range, the bulls go back to free choice native hay and that same slow gain ration. You can be assured that the bulls in this offering are exactly what you see. Our customers from Nevada to Michigan are very pleased with how the bulls maintained condition and libido during breeding. How are these bulls holding condition in such different and contrasting environments? Many of the grasses across the country have higher nutritional content than in the Sandhills. The bulls that make it through our program will thrive anywhere!

All of these bulls ME EPD % is at the very top of the breed- they will be easy keepers as will their progeny. This keeps the money in your pocket!

Many folks are seeing the difference in what a “Ranch Raised Bull” can do for their operation.

“I believe these bulls are making a low maintenance cow that can thrive in any environment. We are also really pleased with the calf crop this year, and the heifers are awesome and the steers are doing well on feed.” - Zach W, Nevada

“He held up well. We had him with 16 first calf heifers and 8 virgin heifers and they were all pregnant when we checked them. And he still had plenty of condition on him. Disposition with him and the heifers has been good also.” -Derek B, Iowa

“The bulls are great! Not overfed so it’s easy to see how they perform from birth to yearling. They hold up great!”
– Michael R, Idaho

“Orton Ranch Red Angus bulls definitely are top notch!! Nice - calm quiet bulls!!!” -Houston H, Nebraska

“Your kiddos and the ranch are why we buy from you, along with the fact that these bulls are top notch. I want to support ranches with young ones so they can have things while learning how rewarding ranch life is. We are so happy that there are still ranches for kiddos that love working and seeing animals grow while making a living. God bless!” -Charla S, Nebraska

We appreciate you being here supporting this great program we stand behind. May the Lord bless you with a happy and healthy new year!

-Daniel and Summer Orton

Meet the Crew

Our crew consists of our family, horses and dogs. This brings us great satisfaction knowing we ride for our cattle, our land and our brand.

We are proud to offer efficient and quality Red Angus bulls and females, raised by our family for your family!

Badger
A special shoutout to a great cow dog who is now chasing cows up in dog heaven.

THRIVE

Ranch Tested. Rancher Trusted.

Red Angus

RedAngus.org

Position your ranch to thrive with the industry's most-favored female.

An independent university study compared eight years of Superior Livestock Auction data, revealing Red Angus-sired heifers commanded up to \$11/cwt more than females of all other breed types.

Mr. Sandman is one of the best 84S sons that we've ever seen! He's truly a Sandhills bull... moderate, easy fleshing, and thick. He's a true "herd builder" bull that sires smooth deep bodied sons and daughters. We've owned him now for 5 years and originally was used on our commercial cows that we owned prior to purchasing the Bruns Red Angus herd. We could see year after year the improvement that he made in our replacement heifers and steers. He has proved himself a breeder that has a great disposition, is structurally correct and has a very high libido.

We are starting the offering with a bull that has been flat out phenomenal since the day he was born. We knew when we purchased Magnum D507 that he would make these kind of sons as well as great daughters. This dark cherry red long bodied herd bull will stamp your bull calves with masculinity and your heifer calves with femininity!

Do you want a bull that will maintain condition during breeding season and pass those easy keeping genetics on to his progeny? Then we've got what you are looking for. We are selling 45 Red Angus bulls with a ME EPD all in the top 15% percent of the breed! Our bulls are raised and developed naturally and not fed a hot ration in a feedlot environment. They are naturally deep bodied and easy fleshing.

One thing you will notice about these X Factor 72C sons is that they have some serious gut capacity and fleshing ability. We lost G67's granddam last fall and she was as good a cow as you'll find anywhere. This big fronted bull will power your herd to better females with an unmatched fleshing ability.

Blue Collar Bull! Top 1% in the entire breed for fleshing ability!
 Top 2% for Herd builder! But what is even better than that is that he looks the part! We love growing bulls slowly so you can come to town and see bulls for what they truly are. Not splattered with every shade of makeup to give you a false misrepresentation of the bull.

One trait of a great herd bull is to make his sons better than he is. We had a chance to go see Redhill B571 Julian 84S in person at Rick Calvo's Ranch a few years ago and boy were we impressed! Calvo 84S Mr. Sandman 78A over the years has been a steady rock for us, his libido is as strong as anything we have ever seen. These Mr. Sandman sons are so consistent it simply hard to pick the best one.

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

HPG..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

2020 Sale Highlights

Sale Terms & Conditions

1. BIDDING

The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

2. TERMS

Terms of sale are cash unless satisfactory credit arrangements have been made with Sale Management prior to sale.

3. PURCHASER'S RISK

Each animal becomes the risk of the Buyer as soon as sold, but it shall be the obligation of the Seller to see that animals are fed and cared for free of charge to Buyer, until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

4. CERTIFICATE OF REGISTRY

A transferred certificate of registry will be furnished to the Buyer for each animal.

5. HEALTH

All animals are eligible for interstate shipment, except as otherwise announced. Interstate health papers will be furnished for each animal in accordance with prevailing State/Federal Regulations.

6. ANNOUNCEMENTS

Announcements from the auction block shall take precedence over the sale catalog and/or any additional information printed regarding the animal(s) sold.

7. LIABILITY

All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents or losses that may occur.

8. CONTRACT

The above terms and conditions of the sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitute a separate transaction.

Tribute Lynn Roy Schiess

September 11, 1946- September 3, 2020

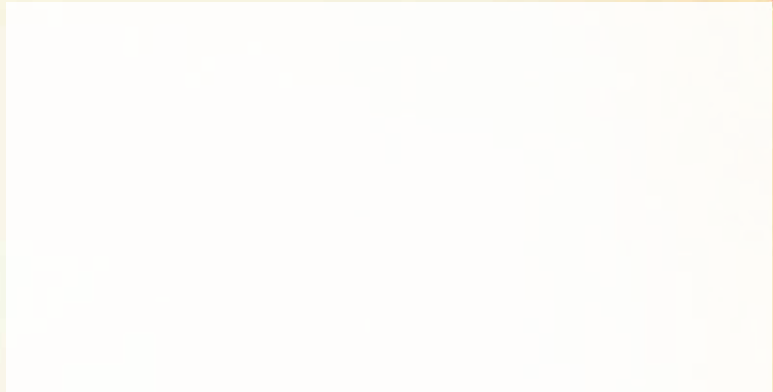

My dad was a man of few words. He let his actions speak for themselves. He grew up on a small farm in Idaho with six siblings. They worked hard and played hard. I grew up on the same farm he did. We grew potatoes, barley, raised cattle and participated in 4-H. My dad didn't always have a lot of time and so to get my time in with him I enjoyed first going to work with him, then going to work for him. He taught me to do a job right the first time and for it to be something I was proud of. He was always very tender hearted when it came to animals and he treated them with respect and kindness. I remember him lifting the barn cat by his tail because he liked it. I remember him trying to resuscitate a backwards calf I watched him pull. He helped us set up a swimming pool so we could save the trout dying in the creek that was drying up. Over the years he was always interested in what was happening here on the ranch in Nebraska. He wanted to know about the bulls or how his old baler was running that we bought from him. He wanted to get out here more often.

My dad was doing his best to be like the Savior. Many times I found him kneeling beside his bed or in his office studying the scriptures. He was a great example of serving others. I am grateful for all he taught me just by living his life. We dedicate this bull sale to him.
