

Annual Bull and Female Sale
ORTON RANCH RED ANGUS

January 19, 2019

RANCH RAISED BULLS
from the
SANDHILLS OF NEBRASKA

Lunch at 11:30 pm ct 🌐 *Sale at 12:30 pm ct*

BASSETT LIVESTOCK AUCTION
BASSETT, NEBRASKA

Welcome Gattlemen

On behalf of the crew at Orton Ranch Red Angus, we welcome you to our first annual bull sale. We thank you for being here! The name may be different, but these bulls are from the same good old "Mamma Cows" you know from Bruns Red Angus. The focus on the female remains our goal!

Ten years ago we began an amazing journey. We had no idea a personal bull sale was in our future. We spent years working on different ranches including The Rex Ranch outside of Lakeside Nebraska, and Sitz Angus of Harrison Montana. After three years of selling home security systems, sacrificing and working hard, we were able to purchase our current ranch. We've been blessed to secure local leases close to home in order to grow our herd from the first 22 cows we bought with the place. Thanks to Daniel's current position with Platinum Supplemental Insurance we've been able to first grow our commercial operation, and now purchase the registered herd from Bruns Red Angus. We didn't inherit anything. We have no investors. This is us.

We've been around, seen a lot of different country and different cattle. We've developed an eye for what we like. The Mamma Cow is the most important part of our operation. First, she must be structurally correct, have good feet and be able to travel as we lease rugged canyon sandhill pastures. Second, she should be a good mother, have a good udder, and do a good job raising her calf. Third, good disposition is a must around here! We have zero tolerance for mean cows- we can't afford it. Finally, we like cows with eye appeal. We like them functional but a little fancy as well!

A lot of our Mamma cows come from 5L Red Angus in Western Montana. They are deep bodied, easy fleshing, working type cows. They are good mothers and of a gentle disposition.

We also have a lot of Red Hill B571 Julian 84S genetics growing in our younger herd. He definitely adds capacity and depth. His daughters and granddaughters are beautiful and second to none.

We are very pleased with the way these bulls have developed this year. As yearlings, they ran all summer on Sandhills pasture without supplement. They were able to grow and develop without being pushed. We feel that slower, naturally developed bulls will stay in your herd longer, breeding more cows. These bulls are herd builders! This winter they've had free choice hay and a corn distillers blend. They continue to develop slowly and are not on a hot ration.

Anyone can see that Red Angus cattle are up and coming. The Red Angus Association states this about the Red Angus female: "Red Angus females are in high demand from commercial producers far and wide. Their longevity, fertility, adaptability and efficiency, coupled with their good disposition, make them the ideal cow for today's producer."

With that said we are also offering a fancy group of commercial and registered bred heifers.

Thank you for your interest in our cattle, we look forward to meeting and serving you!

- Daniel and Summer Orton

Auctioneer's comments:

I have been asked to work as auctioneer for the Orton Ranch Red Angus first purebred bull sale. I visited their ranch this summer and was very impressed with their program and the cattle. In the years I have known Daniel and Summer I have always admired the honesty and integrity of the family. As I viewed the cattle, I found the mother cows bred and built to produce top quality bulls for any program.

You will find the Ortons to be people you will be proud to do business with. Customer service is top priority with Orton Ranch Red Angus. Come buy with confidence.

Doug Andersen, Auctioneer

Meet the Crew

Our crew consists of our family, horses and dogs. This brings us great satisfaction knowing we ride for our cattle, our land and our brand.

We are proud to offer efficient and quality Red Angus bulls and females, raised by our family for your family!

A special thank you to some great neighbors that have helped us over the years.

Pictured left: Marty & Dean Painter

THRIVE

Ranch Tested. Rancher Trusted.

Red Angus
RedAngus.org

Position your ranch to thrive with the industry's most-favored female.

An independent university study compared eight years of Superior Livestock Auction data, revealing Red Angus-sired heifers commanded up to \$11/cwt more than females of all other breed types.

This may be one of the most complete Red Angus bulls I have ever seen. He has depth of body, length and fleshing ability. His feet look great and he travels very well. His temperament is as soft as it gets. His mother is very feminine with great feet and udder quality.

Red Angus Guide to EPDs

HB HerdBuilder Index – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

GM GridMaster Index – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

CED Calving Ease Direct – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

BW..... Birth Weight – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

WW Weaning Weight and **YW** Yearling Weight – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

Milk Milk – Predicts differences in weaning weight of daughter's progeny due to milk production.

ME Maintenance Energy – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

HPG..... Heifer Pregnancy – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

CEM Calving Ease Maternal – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

STAY.... Stayability – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls that have a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

MARB .. Marbling Score – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

YG Yield Grade – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid-marketed progeny.

CW..... Carcass Weight – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

REA Rib Eye Area – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

FAT Backfat – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.

Ranch Tested. Rancher Trusted.

In Loving Memory

*We would like to dedicate our
first annual production sale to*

Carolyn Burton Orton

October 1, 1944 - July 30, 2018

“My mom was born on a sugar beet and dairy farm in Northern Utah. She learned at a young age the value of hard work and treating people with love and kindness. At her funeral countless numbers of people commented about how her smile and her Christlike attributes impacted their lives for the better. My mom has always supported me through every high and every low that has come throughout my life. Her and my wife Summer were very close and she is very missed by all of us. We would like to dedicate our first bull sale to my mom Carolyn and we thank her for her love, her smile, her unwavering support and her commitment to living the gospel of a Jesus Christ. Thank you mom!”

-Daniel Orton

Sale Terms & Conditions

1. BIDDING

The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

2. TERMS

Terms of sale are cash unless satisfactory credit arrangements have been made with Sale Management prior to sale.

3. PURCHASER'S RISK

Each animal becomes the risk of the Buyer as soon as sold, but it shall be the obligation of the Seller to see that animals are fed and cared for free of charge to Buyer, until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

4. CERTIFICATE OF REGISTRY

A transferred certificate of registry will be furnished to the Buyer for each animal.

5. HEALTH

All animals are eligible for interstate shipment, except as otherwise announced. Interstate health papers will be furnished for each animal in accordance with prevailing State/Federal Regulations.

6. ANNOUNCEMENTS

Announcements from the auction block shall take precedence over the sale catalog and/or any additional information printed regarding the animal(s) sold.

7. LIABILITY

All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents or losses that may occur.

8. CONTRACT

The above terms and conditions of the sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitute a separate transaction.
